General Record Book Guidelines

It is suggested that a copy of the record book be made for use as a “Work Copy.” Records may then be transferred into this book for a “Final Copy.”

1. Your Record Book should begin when you purchase your animal.
2. *Only one project may be included in each Record Book. If you are having more than one project (different types of animal) in this fair, you must have a separate Record Book for each project.*
3. The only item you should submit at check in is the record book. Please do not make it a scrapbook.
4. Place Record Book in a folder or plastic protector sheets. No 3-ring binders.
5. Always double check your work, especially math calculations.
6. Have someone check your project story for spelling and grammar before you write it in the final record book.
7. Your final record book should be **handwritten in pencil** by the exhibitor. No computerized books will be accepted.

Project Terms and Explanations

1. **Date Acquired** – List the date you obtained this item, on items older than 1 year, the year will be sufficient.
2. **Purchase cost or value** – What did this item cost when you obtained it (fair market value)?
3. **Value at beginning of Project** – Same as purchase cost for items purchased current project year. On items from previous years this should be the value from last year’s ending inventory or depreciated value of 10% of purchase cost per project year.
4. **Depreciation of 10%** - This will be 10% per project year, of the original purchase cost for the items you will still have at the end of the project. This includes items you had at the beginning of the project as well as items purchased during the current project year. Depreciation is the loss in value of your assets and is an expense.
5. **Value at the end of the project** – This is the value at the beginning of the project minus the depreciation.
